host_identity_verified	boolean [t=true; f=false]			
neighbourhood	text			
neighbourhood_cleansed	text	y	The neighbourhood as geocoded using the latitude and longitude against neighborhoods as defined by open or public digital shapefiles.	
neighbourhood_group_cleansed	text	y	The neighbourhood group as geocoded using the latitude and longitude against neighborhoods as defined by open or public digital shapefiles.	
latitude	numeric		Uses the World Geodetic System (WGS84) projection for latitude and longitude.	
longitude	numeric		Uses the World Geodetic System (WGS84) projection for latitude and longitude.	
property_type	text		Self selected property type. Hotels and Bed and Breakfasts are described as such by their hosts in this field	

Data Dictionary for listings.csv detailed file				
File Name	listings.csv			
Version	4.3			
Date Introduced	August, 2022			
Description				
Field	Type	Calculated	Description	Reference
room_type	text		<p>[Entire home/apt Private room Shared room Hotel]</p> <p>All homes are grouped into the following three room types:</p> <p>Entire place Private room Shared room</p> <p>Entire place Entire places are best if you're seeking a home away from home. With an entire place, you'll have the whole space to yourself. This usually includes a bedroom, a bathroom, a kitchen, and a separate, dedicated entrance. Hosts should note in the description if they'll be on the property or not (ex: "Host occupies first floor of the home"), and provide further details on the listing.</p> <p>Private rooms Private rooms are great for when you prefer a little privacy, and still value a local connection. When you book a private room, you'll have your own private room for sleeping and may share some spaces with others. You might need to walk through indoor spaces that another host or guest may occupy to get to your room.</p> <p>Shared rooms Shared rooms are for when you don't mind sharing a space with others. When you book a shared room, you'll be sleeping in a space that is shared with others and share the entire space with other people. Shared rooms are popular among flexible travelers looking for new friends and budget-friendly stays.</p>	https://www.airbnb.com/help/article/5/what-does-the-room-type-of-a-listing-mean
accommodates	integer		The maximum capacity of the listing
